

Seating & Upholstery Catalog

Revised August 2018

**We are committed to changing lives by building bridges
between our offenders and their new careers.**

Governor's Success Initiative

Utah Correctional Industries is a self funded division of the Utah Department of Corrections (UCI). Like all state agencies, UCI was tasked by Governor Gary Herbert to increase efficiencies by 25% by 2016.

UCI was approached by the Governor's Office of Management and Budget about utilizing the Theory of Constraints (TOC) to increase efficiencies and meet UCI's goal of reducing recidivism. UCI was introduced to Bahadir Inozu, Ph.D., Principal and Co-Founder of NOVACES, LLC

Baha and his team worked with UCI and implemented the following TOC tools; Value Stream Analysis, Capacity Planning in the UCI Furniture Shop, Simplified Drum Buffer Rope in the UCI Print Shop, and Critical Chain Project Management for the UCI Construction group.

The results have been astounding since implementation of these TOC tools. These are a few of the results.

Furniture Shop:

- *Created a stabilized flow that resulted in:*
 - *Gained the ability to track the production status of each piece of furniture.*
 - *Reliable completion dates are now available for the customer.*
 - *Furniture production capacity has doubled.*
 - *Revenue increased by 19% over the previous year.*
 - *A production baseline has been established that can be continuously improved .*
- *And most importantly, the increased capacity has allowed the hiring of almost 40% more inmates; more skilled inmates with proper training = less recidivism which equals meeting the Governor's Success Initiative.*

Print Shop:

- *Print shop is able to track job in real-time, and forecast the capacity and the load accurately.*
- *There has been a 32% increase in jobs handled, 30% increase in sales revenue, and lead times have been shortened by 12%.*
- *Revenue increased by \$323,633 in FY15 as a result.*

Construction:

- *On the first major project using CCPM UCI was able to overcome all obstacles including weather delays and completed an "impossible" schedule on time.*
- *Staff and inmate workers are excited about the prospects.*
- *"We can now guarantee on time completion."*

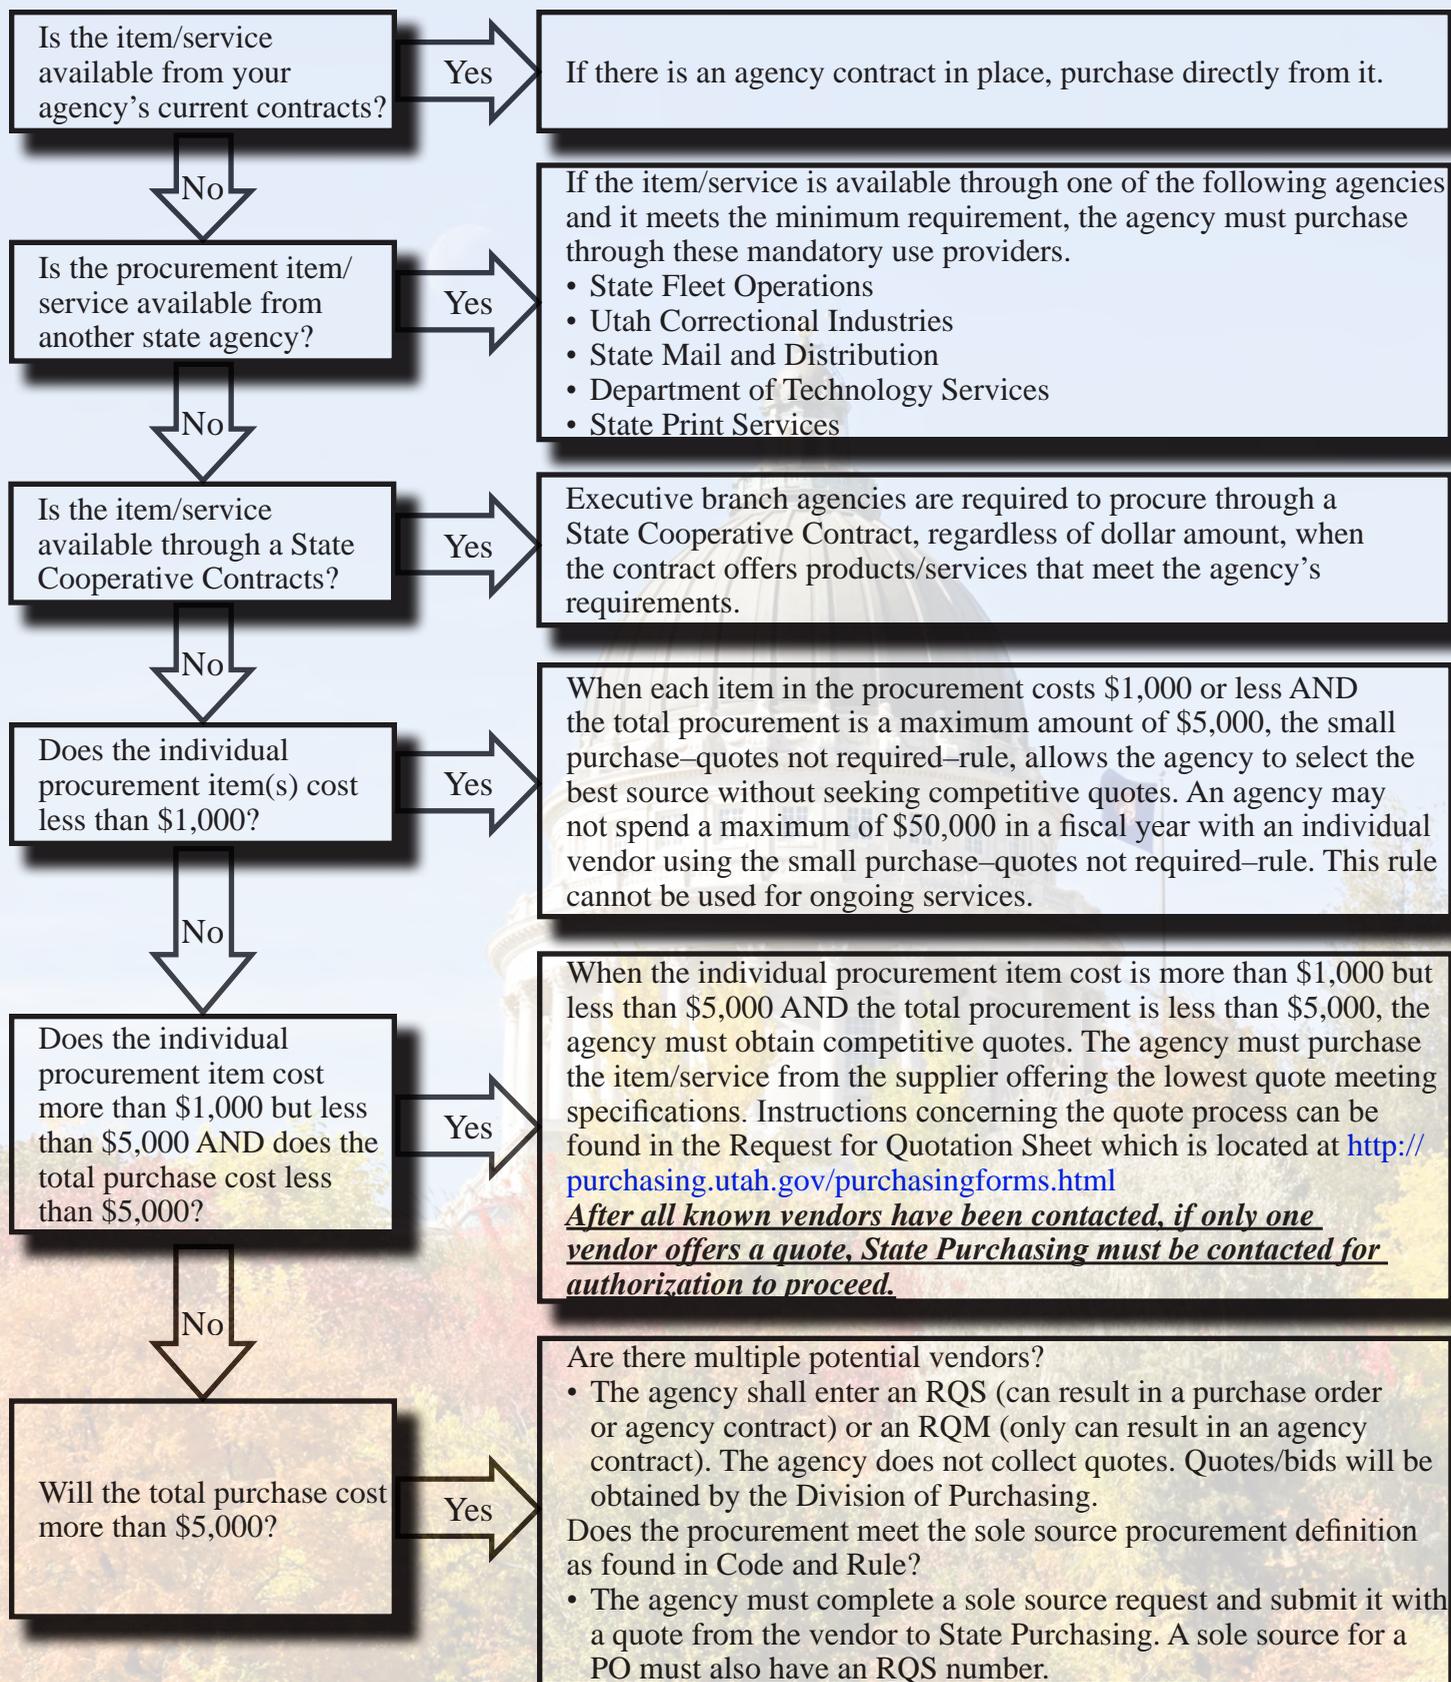

Overall Results for UCI:

- *Other quantifiable results discussed earlier*
 - *Inmate jobs*
 - *Enhances UCI sustainability*
- *Greater participation and team mentality for staff and inmates alike. Everyone has a voice.*
- *Business side improvements*
 - *Production, lead time efficiency, quality*
- *Working smarter – not harder*
- *Greater customer satisfaction, improving image*

In addition to the TOC tools UCI has been working over the past three years to achieve ISO 9001 certification. We are pleased to report that several of UCI's cost centers have received ISO 9001 certification! This is a monumental achievement that has been accomplished under the direction of UCI Deputy Director Bryan Morris, along with countless hours of work by staff and offenders alike.

TOC and ISO 9001 have done wonders for the efficiency and productivity of UCI, and truly enhanced the ability to provide quality work opportunities for offenders.

Since its introduction, the Ithaca Seating line has been providing the comfort and adjust-ability of premium seating without the premium price tag. The Ithaca Ultra gives this tradition a modern twist by adding a mesh back to the upholstered seat. Not only does this mesh give the chair a new look, it adds a new dimension in comfort – the unsurpassed breathe-ability and support of a material that conforms perfectly to your body.

In the true spirit of a hybrid, the Ithaca Ultra has retained many of the features that made the original a hit, including the molded foam seat that provides all day support without fatigue. The seat height and depth controls continue to put an executive ergonomic experience within easy reach. For executive luxury, the fluid movement of the synchrotilt mechanism is unchanged as well.

The optional, plush molded foam headrest attachment adjusts for personalized comfort.

Luxo

Luxo Leather Strong

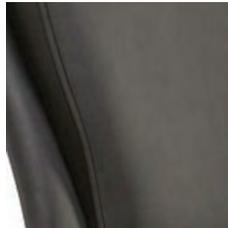

When you first see the Luxo, you'll notice its obvious good looks - the professional styling and appealing profile. And then you sit in it. You feel how soft it is. Supple. It's not just comfortable. It is luxurious like leather, but much more durable and affordable.

We call it LeatherSoft upholstery, a revolutionary new material that gives you the elegance and feel of leather, without the cost and maintenance. Woven together with the smooth action seat mechanism and the 3-point pivot arms the comfort experience is unparalleled. It's another innovation brought to you by Valo—where style, comfort and value are intricately woven to create furniture that works for you.

Luxo Task Chair \$399

Seat Dimensions: 20" W 19.5" D 16" - 21" H
Overall: 24" W 27" D 41" - 44" H

Leathersoft

This luxurious upholstery is softer and more durable than leather, and requires less maintenance.

Contoured Back

Provides the ultimate in lumbar and back support.

Molded Seat with Waterfall Front

The molded seat includes a knee-tilt mechanism, ensuring all-day seating comfort and allowing your feet to remain on the floor even as you recline. The waterfall front edge reduces leg pressure.

Arms of Steel

The steel arms have a 3 point pivot action for ideal arm support no matter what position the seat is in; the soft polyurethane arm pads ensure arm comfort while protecting the chair and table when not in use.

24/7 Pilot XL

Pilot XL w/ Breakaway T-Arms \$699

Seat Dimensions: 24" W 17" - 19.5" D 18" - 23" H
Overall: 26.5" W 17" - 19.5" D 43" - 52" H

Big and tall users will appreciate Pilots expansive 24" wide seat, which features a waterfall edge to relieve pressure on the thighs, and high back that provides gentle support to the entire spine. To prevent further fatigue, 3/4" of plush, resilient foam envelop both the seat and back.

Because it was designed for round-the-clock use, Pilot won't just be comfortable the first time you use it; it will be comfortable every time. A heavy-duty frame, including an oversized steel J-Bar, and reinforced mechanism guarantee it.

Ideal use for law enforcement and correctional institutions.

Pilot XL Stool w/ Adj. T-Arms \$775

Seat Dimensions: 24" W 17" - 19.5" D 23" - 29.5" H

Piretti. A pioneer in ergonomic seating, the Piretti offers a full range of adjustments in their Art Task/Desk chairs.

The variable position seat slide lock allows the user to choose their adjustment height from 16" to 20.75", which meets ANSI standards. With adjustable back height, users can find the optimum lumbar support to fit their individual frames.

Piretti also features two arm styles – fixed or height adjustable with pivoting armrests – and the standard forward seat tilt. Piretti can also be configured to meet a wide array of working positions. For a more functional workplace, the back is offered with a durable poly back panel. Otherwise, the fully upholstered back gives the chair a more formal look, normally associated with higher end furnishings.

Bantam

Fiber-wrapped foam gives Bantam a soft sit without sacrificing the chair's slim profile.

Bantam Chair \$450

Providing transitional guest seating with a contemporary flair, Bantam offers a fresh take on sophistication. The simplicity of its design elevates the chair's solid Beech hardwood frame from a utilitarian structure to an architectural element.

Stains in a variety of rich tones can be specified to enhance the beauty of the natural wood and coordinate with the chair's upholstery fabric. Balancing the tone and style of the frame are the slim profile of Bantam's back and seat.

The contoured back creates an opportunity to showcase tailored upholstery work while the waterfall seat edge provides lasting comfort. Also providing comfort and durability are the mix of Bantam's seat materials. A generous 2½" thick foam core is encased by a fiber wrap to create a soft sit that maintains Bantam's trademark profile.

Likewise, the contoured back of the guest chair improves the user's experience. With curves that mimic those of the spine, Bantam provides support and subtly encourages a neutral sitting position.

Thoughtfully designed from top to bottom, even Bantam's glides have been selected with the user in mind. The non-marring glides prevent scratches and scuffs on all flooring types, but they also help the chair maintain reliable contact with the floor when occupants use the arms for leverage while sitting or standing.

With a contemporary sophistication that makes it suitable for offices and waiting rooms alike, Bantam may have a slim silhouette, but it is no lightweight.

Bantam's sweeping arm draws attention to its solid Beech hardwood frame, accentuating its sophisticated design.

A contoured back mimics the curves of the spine and creates a canvas to showcase cleanly tailored upholstery.

Campus

The Campus Chair Series features 1-1/2" thick solid oak butcher block construction to provide the strength and durability essential for use in educational and institutional systems. To add to its ruggedly constructed frame, Campus incorporates the use of no-sag springs in its cushion.

Consult

Wherever you elect to use Consult Lounge furniture you can be sure that you'll have comfortable seating for years. The core of Consult is a hardwood frame and steel innerspring surrounded by multiple layers of contoured foam. Durable high density foam is used to sculpt each piece and maintain its shape impeccably between uses, while a lower density foam overlay provides plush comfort.

Comfort isn't just a result of composition with Consult—it was at the forefront of the entire design. With its generous 21-1/2" x 20-1/2" chair seat, this furniture accommodates everyone who is tempted by its clean lines, and with lines like these who wouldn't be tempted?

Perth 2 Seat Open Arm
\$885

Perth's solid Beech hardwood arm and leg assembly is constructed as a single unitized piece, making it stronger and replaceable in the field.

Perth Loveseat
with Table
\$760

Because the back cushion attaches to the frame with Velcro, it can be removed for cleaning or reupholstering.

Perth is the guest seating line that anticipates your future needs. An innovative choice for high-traffic areas of all kinds, Perth is composed of a durable steel frame and a solid Beech hardwood arm/leg assembly that can be replaced on site.

The seat and back cushions can also be changed in the field without specialized tools. They are attached to the frame by concealed Velcro fasteners and encased by zippered covers.

Because soiled or damaged cushions can be replaced and covers removed for cleaning, Perth is a prudent choice for healthcare settings and other demanding environments that typically require vinyl or stain-resistant

upholstery.

Available in loveseat and chair configurations, Perth also anticipates an expanding need for seating. Multiple-seating units can be ordered or assembled during reconfigurations from individual guest chairs and added sections. Likewise, connecting tables can be specified initially or retrofitted on to existing arrangements.

With its refined curves and a closed-arm option reminiscent of a sail, Perth has both the style and structure to help you chart a course to a superior guest seating experience.

The seat cushions are encased by zippered fabric covers and can also be changed quickly and easily in the field.

Not all chairs are available in all woods or stains. Different wood species offer different textures and grains. Minor variations in finish color and value may occur due to the natural characteristics of wood. UCI uses only the highest quality furniture grade stains and finishes in its seating. UCI carefully selects all materials used in every product ensuring commercially acceptable color and finish; however, it is possible for light and time to alter the color of wood and stain. The stains represented on this sample sheet are similar to the actual product. To see examples of finished seating or if you have any questions about matching finishes to your existing furniture, please call (801) 576-7700.

WARRANTY

Our commitment to your satisfaction does not end with your purchase of UCI products. Utah Correctional Industries warrants seating purchased from UCI to be free from defect in workmanship, when given normal care and use. UCI warrants, for the original purchaser, the products be free of defects in materials and workmanship for 15 years.

UCI's customer service department will repair or replace, at UCI's option, items covered under this UCI warranty, providing they are within the terms set in this warranty.

This UCI warranty is valid only if products are given normal and proper use, and comply with UCI installation and maintenance instructions. UCI assumes no responsibility for repairs to products sustaining damages resulting from user modifications, attachments to a product, misuse, abuse, alteration, or negligent use of the product.

This warranty does not cover the following: damage caused by carrier other than UCI, any material specified by the customer that is not a standard UCI product offering, damage caused by and/or resulting from user modification or negligent use of the UCI product.

There are no other warranties except as expressly set forth herein, either expressed or implied. We exclude and will not pay consequential or incidental damages under this warranty.

UCI guarantees its customers that we will stand behind the workmanship and products produced at UCI, and pledge to do everything reasonably possible to solve problems on a timely basis, within the terms of this warranty.

If you have any questions concerning UCI's warranty policy, or problems with UCI products, please contact UCI at (801) 576-7734 and ask for Customer Service.

Non-obsolescence Policy: UCI will provide non-obsolescence protection of out of warranty seating by repairing or replacing the obsolete item at a price that is satisfactory to the customer.

The State Use Law

63G-6a-804 Purchase of prison industry goods.

- (1)
 - (a) A procurement unit that is not a political subdivision shall purchase goods and services produced by the Utah Correctional Industries Division as provided in this section.
 - (b) A political subdivision of the state may, and is encouraged to, purchase goods and services under this section.
 - (c) A procurement unit is not required to use a standard procurement process to purchase goods or services under this section.
- (2) On or before July 1 of each year, the director of the Utah Correctional Industries shall:
 - (a) publish and distribute to all procurement units and other interested public entities a catalog of goods and services provided by the Correctional Industries Division, including a description and price of each item offered for sale; and
 - (b) update and revise the catalog described in Subsection (2)(a) during the year as the director considers necessary.
- (3)
 - (a) A procurement unit that is not a political subdivision of the state may not purchase any goods or services provided by the Correctional Industries Division from any other source unless it has been determined in writing by the director of Correctional Industries and by the procurement officer or in the case of institutions of higher education, the institutional procurement officer, that purchase from the Correctional Industries Division is not feasible due to one of the following circumstances:
 - (i) the good or service offered by the division does not meet the reasonable requirements of the procurement unit;
 - (ii) the good or service cannot be supplied within a reasonable time by the division; or
 - (iii) the cost of the good or service, including basic price, transportation costs, and other expenses of acquisition, is not competitive with the cost of procuring the item from another source.
 - (b) In cases of disagreement under Subsection (3)(a):
 - (i) the decision may be appealed to a board consisting of:
 - (A) the director of the Department of Corrections;
 - (B) the director of Administrative Services; and
 - (C) a neutral third party agreed upon by the other two members of the board;
 - (ii) in the case of an institution of higher education of the state, the president of the institution, or the president's designee, shall make the final decision; or
 - (iii) in the case of any of the following entities, a person designated by the applicable rule-making authority shall make the final decision:
 - (A) a legislative procurement unit;
 - (B) a judicial procurement unit; or
 - (C) a public transit district.
