Each wood species offers a different texture and grain. Minor variations in finish color and value may occur due to the natural characteristics of wood. UCI uses only the highest quality furniture grade stains and finishes in producing furniture. UCI carefully selects all materials used in every product, ensuring a commercially acceptable color and finish. However, it is possible for light and time to alter the color of wood and stain. The stains represented here are similar to the actual product. If you want to see examples of finished furniture or if you have questions about matching finishes to your existing furniture, please call (801) 576-7700.

Each wood species offers a different texture and grain. Minor variations in finish color and value may occur due to the natural characteristics of wood. UCI uses only the highest quality furniture grade stains and finishes in producing furniture. UCI carefully selects all materials used in every product, ensuring a commercially acceptable color and finish. However, it is possible for light and time to alter the color of wood and stain. The stains represented here are similar to the actual product. If you want to see examples of finished furniture or if you have questions about matching finishes to your existing furniture, please call (801) 576-7700.
